

PRO-TECH-TIVE

TUFF SKIN FRUIT AND VEGETABLE MATS

Tired of Bruising your profits??

Pro-Tech TUFF Skin padded fruit & vegetable matting provides a soft landing area under the conveyor or dump container.

Features:

- Soft, padded landing for fruits & vegetables
- Smooth, easily wiped clean, sealed surface
- Very tough yet giving top that is not easily punctured
- The underlayment sponge is a high quality extruded NBR closed cell sponge. The protective top surface is our ultra-durable TUFF Skin, which is applied hot at Pro-Tech Mats Industries, Inc to eliminate any chance of de-lamination that similar products may have

Benefits:

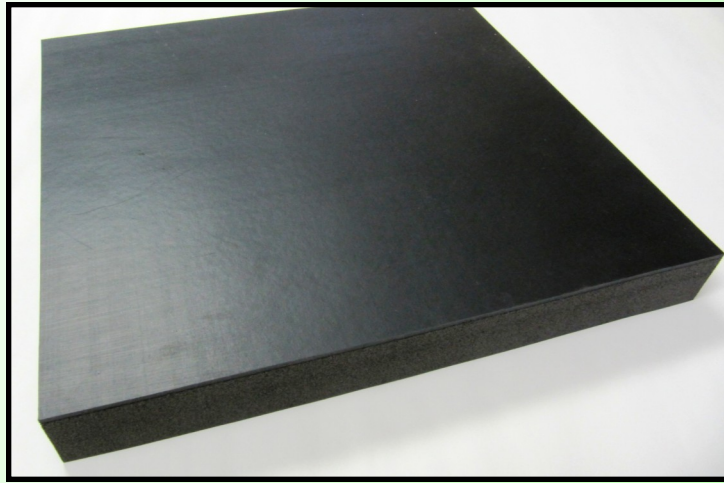

- Immediate increase in revenues due to fewer lost or damaged products!
- Cuts down on noise in the workplace
- Lightweight and easy to move
- Non-Allergenic Latex and Silicone free
- Custom sizes available (with extended lead time)

Made in the USA
